Amber and Nick:

Since, they are requesting 8 signs, I feel that we should be getting the P.S. Committee's approval.

I would estimate the fiscal impact to be about \$1,600 if new sign posts are needed. If we can mount to existing posts or MPU power poles the cost would be somewhat less.

I believe each sign is about \$100 and the post and installation are about another \$100.

Billy,

Do you agree with my estimated cost???

If not, please respond with the proper estimated cost. Thanks.

Greg,

We would like to add 8 signs in these general areas and we are ok with it having to go to committee.

The reasoning for these signs is because we sometimes have semis that will park on the road and block all visibility for cars entering and exiting parking lots as well as for employees crossing the streets. These locations would make our campus a safer area for everyone.

Also, would we have to attend any meetings or would that all be taken care of?

Thank you,

Paul Fencl Jr

Hi Paul,

Per the Manitowoc Municipal Code, there is already No Parking allowed on either side of South 30th St. from Division St. to Viebahn St.

That being said and looking at Google Maps Street View, it appears that there are only 4 existing No Parking signs on the east side of the street, 3 in front of your property and one up by Robinson Metals. This is about a ½ stretch of road.

Could you send us a map that would more specifically show us where you are requesting the additional No Parking Signs? Are you also looking at more signs on the west side of the street as well??

I believe that we could just install a couple (2-3) additional signs without taking the request to our Committee. However, if you are thinking that you want say 4 signs or more on each side of the road, then you probably should make a request to the Public Safety Committee.

I would estimate that each sign and post furnished and installed is about \$250. So, if you are looking at 4 or more signs, then we are talking about more than \$1,000 in costs which should probably go to the Committee.

Let us know what you are officially requesting. Thanks.

Subject: External: No Parking signs

Good afternoon Greg,

I was asked to reach out and see if we would be able to get "No parking" signs for the street in front of our building, parking lots, and driveways. Is this something you would be able to help us with?

Thank you,

Paul Fencil Jr
