Subject: External: For common Council meeting Monday 2/21/22

What is DEI...important for each Council Member to view.

This is what both Justin and his Dad are trying to indoctrinate you, the Council members with. They want the whole city to believe this. DEI already has control in the library (the books in this video and many more like it are in our library, being promoted to young children, and you should see what young minor teens have access to through our library without adult knowledge). Oh, but we had to get rid of the Dr. Seuss books!! Now for the schools, DEI is what Derute Consulting indoctrinated 30 MPSD principals, directors, deans, and student leaders with so they could indoctrinate all staff below them. This is already done!!!!!! They spent \$42,000 of our taxpayer money to divide our children by race, ethnicity, and gender without the knowledge of the parents. Do you want this for the future generations of this great welcoming city? Do you honestly think that our city's police, businesses, citizens, etc., are not welcoming, helpful to all, good non-racist people?
