Re: 2022 Seal Coating Project WS-22-6 – Award Recommendation

The low bid that we received from Fahrner Asphalt Sealer, LLC for the 2022 Seal Coating Project (WS-22-6) was slightly more than we anticipated. In order to have funds available for the preparation work that is completed by the DPI-Operations prior to the Seal Coating work, we will need to eliminate the work on North 6<sup>th</sup> Street from New York Ave. to Pine Street. The Contractor has agreed to eliminating this work.

This will eliminate 2,773 square yards of seal coating. The cost reduction will be \$14,918.74. Therefore, the new total contract amount that will be recommended for awarding shall be \$131,250.74.

We recommend awarding Project No. WS-22-6 to Fahrner Asphalt Sealers, LLC in the amount of \$131,250.74.
