---

Amber,

Here are the necessary No Parking changes on South 10th St. between Franklin St. and Marshall St. that will be required due to the conversion of 10th Street to 2-Way Traffic.

Can you please put an item on the March Public Safety Committee Agenda for these changes?

1. **There is an existing Ordinance Section 10.390 S. 10th Street (g), there is no existing signage in the field to match this ordinance language. Therefore, (g) should be repealed.**

2. **There is an existing No Parking Here to Corner Sign on the west side of South 10th St. located 190 feet north of the north curb line of Washington St. However, there is currently no ordinance language for this sign. Therefore, we need to create a new Ordinance section for this existing sign.**

3. **Create a new section for No Parking on the east side of South 10th Street beginning at the south curb line of Franklin St. and continuing south for a distance of 105 feet.**

4. **Create a new section for No Parking on the east side of South 10th Street beginning at the north curb line of Washington St. and continuing north for a distance of 180 feet.**

5. **Create a new section for No Parking on the west side of South 10th Street beginning at the south curb line of Washington St. and continuing south for a distance of 190 feet.**
