Amber,

Here's one more to add for discussion.

Again, please let me know if we can ad this or not and copy Alder Boldt please.

Thanks, Bill S

Subject: **Public Safety Solar Stop signs**

How do I go through to try and get flashing solar stop signs near our schools? I was told they cost approx \$2000. Do we have to get special funding. I like the one they have by Jackson Elementary. I would like to see one on 16th and Division (north bound). I till have to go to a couple of the other schools to see if would be wise to put others up as well.

Thank you for your time

Tim Boldt/D7
