Subject: Possible PI Committee Agenda Item - Garbage Collection from Alleys

Dan,

I have heard a few complaints recently from abutting property owners (one Randy got from the property owner about the alley by the Cemetery – the one we are reconstructing this summer and also the Mikkelsens in the N. 8th and Lincoln alley) about the garbage trucks destroying the alleys in the City.

I am not sure how and why the haulers pick up from the alleys.

I will try to dig into this but ultimately we will need Committee and Council approval if we want this changed.

I am not sure how the haulers and/or the residents will feel about changing this.

Let's talk about this at some point. Thanks.
