July 30, 2015

ATTN: Jim Muenzenmeyer

2655 South 35th Street

Manitowoc, WI 54220

Dear Jim,

I have worked up the following proposal to remove the existing Co Ray Vac heating systems in the maintenance shop area and replace with alternate system. We propose the installation of 3 new Calcana infrared tube heaters to be installed to best suit the building layout and to avoid having infrared heat being in to close of contact with any obstacles. Two 40' units operating @ 100,000 btus each and one 80' unit at 200,000 btus. We have also included the installation of one Sterling 250,000 btu unit heater to be hung to provide heat on the west wall and wash the overhead door. Included is all gas piping for the project, wall venting, demolition, penetrations, sealing, thermostats, and startup.

Price: \$17,935.00

Notes:

- Not included is any high voltage electrical
- State plans or city permit not included

Respectfully,

A handwritten signature in black ink, appearing to read "Nick Schaus", written over a horizontal line.
