Date: 9/7/2023

To whom it may be concerned,

This letter intends to dispute an invoice I received for an accident on my way to work earlier this year—early morning of February 22, 2023.

The invoice stated that the reason for the billing was causing the premature death of the tree that my car hit at the time of the car accident. I'd like to argue that the tree will not die prematurely because of the accident. It was an unconscious event. One that I couldn't control due to the road conditions at that time—there was snow on the road, and the road was yet to be salted. As a result, I did not get a ticket from the Police officer on the scene. The officer also noted that nothing else was damaged, but my car was totaled. The accident has cost me significant loss and shoulder and back pain that I'm still experiencing. Although this was not a pleasant event, one that easily could have been deadly for myself and others, I'm thankful it did not turn out to be.

My main argument is that the tree flourishes this summer. Most importantly, the tree is ready to battle the brutal upcoming winter seasons. If the tree dies prematurely, my accident is not the sole nor the only cause factor for this unfortunate event. In fact, according to the tow truck company, that tree has been hit numerous times in the past. In addition to that, the electrical company cut multiple branches over the years to prevent power outages if the branches touched the powerlines that run over. Furthermore, the salt used on the road is another factor that can and will kill that tree and others slowly over time, hence prematurely.

I hope the committee or whoever is reading this letter considers my argument. I hope the necessary steps are taken to eliminate an additional cost caused by an unfortunate event I couldn't prevent. This accident already cost me a lot, and I cannot financially afford to keep paying.

Sincerely, Stevens
