Requesting Supervisor/Manager Comments: The Tyler Connect will give me opportunity to discover new ways to boost productivity and improve our services by using New World Public Safety solutions. Not only will I be able to interact and learn directly from Tyler Technologies' staff, the conference will allow me to meet my peers from across the country to exchange ideas, insights, and solutions to common technology issues in my profession.

What are the objectives for the training? Additional benefits of attending this educational event include:

- Choosing from more than 1,000 educational sessions that highlight software enhancements, provide tips and tricks, and advanced training that will make me better in my position.
- Networking opportunities with my professional peers (5,000 attendees expected).
- Learning about Tyler's latest and future projects from Tyler's executives.
- Taking a test drive of the newest Tyler products in various hands-on labs

How will this training be shared / implemented upon return? We use this software in every position at the PD including patrol, detective Bureau, and clerical. I will share this training with staff and this training most importantly will give me an idea of what solutions are available to our current and future needs with RMS, CAD, and Mobile which we use every day.

How will this training benefit the City? See above answer.

What is the return on the investment? There is not a monetary ROI for this. However, attending this conference will allow me to make informed purchase decisions regarding software updates and improvements.
