FYI:

Here are some photos I took on Dec. 24<sup>th</sup>.

We have a meeting scheduled with the YMCA for January 14<sup>th</sup>.

We have been discussing this issue internally for a while now.

Chad talked to McMullen and Pitz and got a quote from them to rip rap the area by the YMCA which was in the in area of \$75,000 but there would likely be additional restoration costs to replace the sidewalk, etc.

Per the existing agreements, we believe that the YMCA is responsible for the shoreline protection here.

Jeremiah. I ran Mariners trail today. The lake level is causing major problems. This needs immediate attention. Adding a pedestrian bridge of any type, the historic Collins bridge or otherwise, does not seem viable. I believe warrants addition to the PI agenda and hope you agree. I would ask everyone to walk the trail from the yacht club to the West gardens so that we can have a meaningful discussion at PI. I have added Curt to this email. There is also on colossal mess along the trail behind the YMCA. Thanks

Jeremiah,

We have added a few agenda items.

Let me know if you approve.

Thank you!
