Subject: Ellerman Glass - parking spaces

Hi Dan,

I'm not sure who to bring this to so thought I'd start with you ☺. The Mayor and I were doing a business visit recently at Ellerman Glass, 2507 Marshall Street. They indicated some issues with parking, and that it's not very clear to people that they can park on the street in front of the business. Is there any possibility that perhaps a few parking spaces could be striped along Marshall Street? I told them I would look into this, but made no promises!

Please let me know if this is something your department can assess, or if there is nothing that can be done regarding this. If you need further info, please let me know!

Thanks,

April Kroner, AICP
