Sonja,

Can you add an item on the March PI Committee agenda for a request to place 2 porta potties in Silver Creek Park from April through October? I will also talk to them about our goal of creating a structure to house these johns as they requested last year.

Good morning Paul,

Hope the winter has been treating you well. We are considering a project at Silver Creek Park and your name came up. Actually Jessie, your designer. I had your e-mail so thought I would start with you. Due to the increased traffic in this park the current restrooms have not been sufficient, mainly for the disc golf course. We have been placing porta potties at the south and west ends for park users. Our Committee has voiced concern of the looks of the porta johns and has asked us to look at a visually appealing lean to type structure to place them in, maybe on a concrete slab.

We were wondering if this in something that Jessie may have plans for or could draw up and get a materials list for us? I would need to get dimensions, but below is something like we are thinking. Any help would be appreciated.

That sounds great Chad. If we can get a cool design started for the lean to, we will be happy to help install them. The main area would be in the South end of the park and the top area would be secondary but nice to have. Just let me know when I should go talk to the park & rec committee.

Hi Jim,

Just another comment about porta johns. The one on top and the south end will not go back this year unless we make another request. The committee only approved one year for these. I'm assuming you want them back? Can you confirm and I will request these again?

They wanted me to pursue a visually appealing lean to that the porta john could be placed in. This could be a shared project with you and the city if you are interested in pursuing? Maybe Jessie at Brauns could design?

Thoughts?

No worries Sandy. We did use the fieldhouse for one storm blast last year but players can use their cars for this. Bathrooms are the only other concern. Maybe we could discuss porta-johns if the restrooms are shut down during the construction. Looking forward to seeing the plans.

Please be aware that it appears as if the Silver Creek Fieldhouse will be under construction during the time of your two disc golf tournaments. I believe I may have mentioned this to you when you came in. I'm aware that

you use this primarily as a “storm shelter,” but I just wanted to give you a “heads up,” so that you can make alternate plans.

TENTATIVE construction dates = 4/10/17 – 8/18/17. Please try to not book the facility during this time frame. Bids are due 3/8/17; I’ll know more then.

Thanks ~ Jim
