RE: **Reversion Intersection Design – Professional Services Agreement**
North 8th Street & Waldo Boulevard
North 10th Street & Water Street
North 11th Street & Menasha Avenue

The Community Development department pursued quotations from multiple design services firms to complete intersection reconfiguration design on the above said intersections. The qualified low proposal received for the design of these intersections was from Stantec Consulting Services Inc.

Please note that the request for proposal to Stantec did ask for design services for the intersection of North 8th Street and Cleveland Avenue. At this time, we do not recommend major changes at this intersection that would necessitate redesign; therefore, the services for 8th Street and Cleveland would be removed. .

Name	Total Base Bid
Stantec Consulting Services Inc.	\$88,306

Community Development recommends award of professional design services to Stantec Consulting Services Inc for the aforementioned intersections for a total of \$88,306.
