Alderman Jim Brey, Chair
Licensing, Permits and Inspections Committee
900 Quay Street
Manitowoc, WI 54220

RE: Vacant seat on the Manitowoc Public Utilities Commission

Dear Alderman Brey,

I write this letter to state my interest in being considered for the vacant seat on the Manitowoc Public Utilities Commission. It is my understanding that James Morrow is vacating his seat on the commission, and that the Licensing, Permits and Inspections Committee is looking for a replacement. I ask that you take me into consideration.

I believe strongly that Manitowoc is headed into a positive direction. In my time working as a real estate developer, I was able to see the bottom of the recession in Manitowoc, but I have not seen as positive an outlook as I see in business owners today. The public utility has been managed very well for many years now and I look forward to the opportunity to assist in overseeing its future success. Manitowoc Public Utilities is an economic tool that many of our competing municipalities do not have. I believe that the local utility can be a major facilitator for economic growth in the City of Manitowoc.

If you have any questions regarding my application, please do not hesitate to contact me using the information attached.

Sincerely,

Alex C. Allie

Alex C. Allie
