Requesting Supervisor/Manager Comments: 287.00 Total cost

What are the objectives for the training?

Promote new software ideas/suggestions regarding New World software. They also hold training sessions on software. Round table discussions are held with other agencies who use the software.

How will this training be shared / implemented upon return?

Information will be shared with Administration if any new equipment or features will be forthcoming on the software

How will this training benefit the City? What is the return on the investment?

It is a great way to learn from other agencies on how they use the same product. The city can become more efficient and knowledgeable about the system.

Supervisor Approval/Decline

Approved Declined Reason for decline: _____

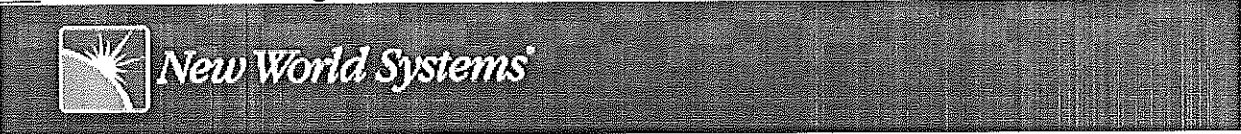

Supervisor/Manager Signature: Oscar Dieb Dated: 6/29/15

**Please attach any additional information you would like considered with this request
