

CN and ATC Tree Planting Grant Plan for Emma Radant Park

The City has been awarded two grants for tree planting at Emma Radant Park. An ATC grant for \$3,500.00 and a CN grant for \$2,500.00. We are proposing to plant about 34 trees at Emma Radant Park in spring/summer of 2016. They would be strategically placed in the park according to the attached map, based on potential future park use. This plan has been approved by PI and Community Development Departments.

Species of trees would be a mixture of Oak, Elm, Maple, Hackberry, and Arborvitae. The Arborvitae would be placed as a divider near the center of the park and other trees would be mixed in to help diversify the canopy at this location.

There will be a small number of trees that will be used at other parks and/or terraces as well.
