Hi Curtis,

Yes, please have this added to the November PI agenda. I suspect it needs further explanation to both the public as well as the committee.

Thank you,

John

Hello Again Mr. Kummer,

Long time no chat...I hope your doing well!

We received a number of citizen concerns on this topic. Even though this plan has been approved by PI and council already, I just received the green light from Mayor Nickels to bring this back to PI committee in Nov. It seems to me like that would be the most appropriate forum to field all of the concerns. At the meeting city staff will be prepared to present the plan and allow for public comment on this matter. We are also making an effort to have our forestry consultant, Jon Rolefson, who carefully and conservatively crafted the plan to attend the meeting to give everyone a thorough explanation on the current condition of the Camp Vits forest and to provide detail as to why the plan was developed as it was.

Alder Brunner, Parks and Rec. Division is requesting for your approval to add "Final Camp Vits logging plan review" to the Nov. PI agenda.

Thanks,

Curtis Hall | City of Manitowoc

Hey. Just ran through Silver Creek and a large tree is down on the front lawn, up near the south entrance into the UW. It's close to the 12th tee for the disc course.

Also a friend whose property abuts Vits tells me some beautiful oak trees are being logged to generate income. Any truth to that and if so who do I contact to object. Thanks
