Subject: October agenda

Good Day Sonja

Could you get this on October agenda. If you need to edit my email please do so.

I would like to reallocate the East Shed insulation project funds for the purchase of a mezzanine system for the DPW mechanics shop and some additional storage racking for outlying sheds on the DPW property.

The money is already budget for it will just need reallocation.

The East Shed project will take much more funding than previously thought do to the building being used for vehicle storage it will fall under different code requirements once we add heat to the space.

With adding the mezzanine system in the DPW mechanics shop this will free up much needed floor space in the DPW North and East sheds that is currently used to store inventory for the mechanics. The DPW mechanics will set up all the none essential winter equipment that will be place in these outlying buildings over the winter months with block heaters to be used on a as needed bases rather than heat the whole building.

Thanks
