RE: Re-appointment to the Manitowoc Public Utilities (MPU) Commission

Jim:

I was appointed to the Manitowoc Public Utility Commission in 1990. Over the years I have seen the MPU evolve and improve both in our support of the City of Manitowoc. Last year we completed the transition of the Wastewater Treatment facility and set the stage for burning paper in place of fossil fuels.

Staying ahead of changes in the regulatory environment, the impact of AI and data centers, lead pipe replacement and major improvements to the wastewater treatment plant are all challenges that MPU is well equipped to handle because of the expertise of the staff.

I graduated from UW-Madison with a degree in Civil and Environmental Engineering in 1979. I was the founder of ROYDAN Enterprises, a software company with a mission of fostering remarkable relationships through innovative technology. I sold the company to the employees in August of 2021. I am currently the CEO and President of the organization.

Thank you for allowing me to serve and to be a part of this great organization, committed to the Community

It is my desire to continue to serve our community by being re-appointed to the Manitowoc Public Utility Commission.

Should you wish to discuss my qualifications or any other matter, please feel to contact me at the telephone number listed above.

Thank you for your consideration,

Respectfully submitted,

Dan Hornung
