Subject: bear purchase

Jason – You are aware that we are looking into getting 2 north american bears. The zoo keeper is working on a contractor to transport and the cost of it. We should have money in the donation tube to pay for it. It is rather a time sensitive issue because the USDA would like them out as soon as possible. Kathy is working with them as well. Can we get the aquiring of the bears and the cost to transport on the agenda for next week? We are hoping to get the supporting information later today. FYI we will be picking up the Lynx next week as well. To refresh - these are rescues that were housed in Minn. They will be in the exhibit where the snow leopard was.

Thanks,

Denise Larson,
Recreation, Sr. Center, & Zoo Division Manager
