TO: Mayor and Common Council
FROM: Board of Public Works
SUBJECT: Quotation for Lincoln Park Zoo Gator Replacement

Dear Mayor and Common Council:

At the February 26, 2025, Board of Public Works meeting, the Board met to receive quotes for Lincoln Park Zoo Gator Replacement. City Clerk reported having received four (4) quotes as follows:

Name	Quote
Feldmann Sales & Service	\$37,498.00
Riesterer & Schnell, Option #1	\$41,000.00
Riesterer & Schnell, Option #2	\$38,100.00
Ken's Sports of Green Bay	\$41,916.00

"Moved by Nycz, seconded by Beeman, and unanimously carried to refer the bid to the Director of Public Infrastructure for tabulation and recommendation. Ayes, 7. Nays, none."

Very Truly Yours,

MACKENZIE REED

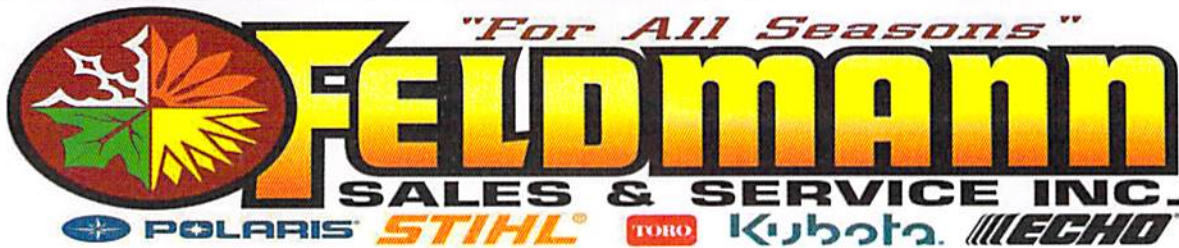

Secretary Board of Public Works

Tabulation Of Quotations Received February 21, 2025

Extended Repair Plan Proposal

PowerGard™ Protection Plan Residential

Date : February 18, 2025

Machine/Use Information

Plan Description

Price

Manufacturer JOHN DEERE

Plan Type:

Deductible:

Equipment Type XUV 845R

Coverage:

Quoted Price \$ 0.00

Model XUV 845R

Total Months:

Total Hours:

THIS PROPOSAL IS VALID FOR 30-DAYS FROM DATE ISSUED. GRACE pricing is offered only early during the Deere basic warranty period and has no surcharges. After this period, DELAYED PURCHASE pricing (surcharged) is offered later during the John Deere Basic Warranty. Many PowerGard quotes presented in the Delayed Purchase Period will require inspection/certification process and must also pass fluid testing. The Total Months and Total Hours listed above include the John Deere Basic Warranty terms (24 months / 2000 hours on Tractors, 24 months on Golf & Turf Products, 12 months for all AG Harvesting and Sprayer equipment, and 12 months/1000 hours on most Gator Utility Vehicles). "Limited" Plan coverage = Engine & Powertrain only. "Comprehensive" Plan coverage = Full Machine.

Proposal Prepared for:

I have been offered this coverage and

Customer Name - Please Print

☐ I ACCEPT the Residential plan

☒ I DECLINE the Residential plan

Customer Signature

If declined, I fully understand that my equipment listed above is not covered for repair expenses due to component failures beyond the original basic warranty period provided by John Deere.

Note : This is not a contract. For specific PowerGard™ Protection plan Residential coverage, please refer to the terms and conditions on John Deere's public website(www.JohnDeere.com) under Services & Support >Warranty > Extended Warranties > PowerGard protection plan Residential.

PowerGard™ Protection Plan Residential (Residential plan) is:

The PowerGard™ Protection Plan Residential is an extended repair plan that provides parts and labor coverage up to four years beyond the manufacturer's warranty. It is available on all riding lawn equipment, zero-turn radius mowers, utility vehicles, utility tractors and compact utility tractors. Your John Deere equipment will be in the hands of qualified, certified technicians from John Deere dealers using Genuine John Deere Parts.

Not covered under a Residential plan:

Residential plans do not cover routine maintenance services or items normally designed to be replaced by the purchaser due to normal wear and tear. They do not cover any product used for commercial or rental applications. They also do not cover repairs for damage from accident, misuse, fire, theft, or exposure to weather conditions such as lightning, hail, flood or water. See the actual PowerGard™ Protection Plan Residential Terms and Conditions for a complete listing of coverage, and limitations and conditions under the program.

JOHN DEERE

Benefits of a Residential plan:

- Offer the choice of adding up to 4 years of repair coverage beyond the machine's factory warranty.
- Do not require preapproval before repairs are made by the authorized John Deere dealership.
- Is transferable by the original purchaser for the balance of the original agreement period.
- Ensures higher resale value and makes equipment more marketable during sale or trade-in.
- Comprehensive Plans:
 - No deductibles and no out-of-pocket costs on covered repairs.
 - Free transportation for factory warranty and extended repair plan repairs for the term of the plan (Note: A surcharge may apply for machines located outside of the dealership's normal service area).
- Limited Powertrain Plans:
 - Low deductibles on covered repairs
 - Do not provide transportation coverage

Retail Price	\$17,599.00
On Sale	\$16,456.00

FEATURES

Engineering

I-4WD: The Pioneer 1000 Trail and Forest showcase our exclusive i-4WD system. Think "I" for "Intelligent," because that's exactly what it is. An industry-first brake-traction control system for side-by-sides, it simplifies operation, increases drivability and optimizes traction. Using proven, advanced technology from the Honda automotive division, you get the benefits associated with a locked front differential with none of the downsides. That means it maintains front-wheel traction even if one wheel wants to spin on ice or mud or if it's in a hole. But at the same time, you get the lighter steering, better tracking at high speeds, tighter turning radius, and reduced kickback associated with unlocked front differentials.

ADVANCED TRANSMISSION LOGIC: The brain of the DCT, Advanced Transmission Logic, senses how you drive and adapts. Relaxed drivers get earlier shifts for a quieter ride at lower engine speeds. Sportier drivers will hold each gear longer for higher RPM shifts. And when going downhill, you get true engine braking. Now that's a smart transmission.

PARKING INTERLOCK: Even something like the parking brake is made smart – and simple. It features a single push/pull cable that makes adjusting and servicing easy.

Performance

MORE POWERFUL 999CC TWIN-CYLINDER ENGINE: We've given the engine huge power in our entire Pioneer 1000 lineup, especially in the midrange and top end. And thanks to the lower gear ratios, you'll feel quick acceleration and stellar overall performance. Using the same Unicam® cylinder head design found in our motocross bikes, the class-leading 999cc liquid-cooled inline twin is compact, while delivering the kind of horsepower and torque you'd expect from a flagship model.

2500-POUND TOWING CAPACITY: The Pioneer 1000 is capable of hauling 2500 pounds. So instead of hopping on the tractor or taking out the truck, you can stay right in your side-by-side and tackle those bigger jobs with relative ease.

BUILT IN THE U.S.A.: The Pioneer 1000 is purpose-built for the American market, right in America. Domestically and globally sourced parts are all assembled at our plant in Timmonsville, South Carolina, and once these side-by-sides roll off the line, they're ready to explore every corner of the country.

FULLY-AUTOMATIC SIX-SPEED DCT TRANSMISSION: Drive the way you want, with the industry's first and only all gear-driven six-speed Dual Clutch Transmission. Choose between manual mode or fully automatic. Plus, the addition of Sport Mode increases the fun, shifting at higher RPM for a spirited, full-performance driving experience.

GEAR RATIOS: We've refined the gear ratios in the transmission, subtransmission, and final drive in all Pioneer 1000 models, helping enhance your Pioneer's versatility under all driving conditions.

HIGH/LOW SUBTRANSMISSION: With a full 42-percent gear reduction between High and Low, you get the torque you need in all six gears. It comes in handy when driving over difficult terrain, scaling steep hills or towing heavy loads.

Handling

CHASSIS AND SUSPENSION: Prepare to go further than ever before. Our refined chassis enables you to tackle terrain others would shy away from, with larger tires, long-travel independent front and rear suspension and huge ground clearance. The rubber mounted engine and exhaust system insulates against excessive vibration.

OTR DIRT MASTER TIRES: All our Pioneer 1000 models feature high-performance OTR Dirt Master tires for excellent off-road traction and superior wear.

THREE DIFFERENT WHEEL CHOICES: Our four Pioneer 1000 models come with three different wheel choices. The Pioneer 1000 rolls on 14-inch steel wheels. The Pioneer 1000 Deluxe and Forest Editions are fit with 14-inch aluminum wheels with an all-black finish, and the Pioneer 1000 Trail Edition gets 14-inch black aluminum wheels with contrast-cut highlights.

EPS SYSTEM: We're proud of this. Honda pioneered (no pun intended) electric power steering side-by-sides. And we've never stopped making it better. Every Pioneer 1000 EPS system features a brushless motor integrated with the ECU. The return-to-center function makes it intuitive on straight trails, and the whole system feels responsive and linear.

INDEPENDENT FRONT AND REAR SUSPENSION: Dual A-arm suspension gives you 10.6 inches of travel in the front, and 10-inches of travel in the rear. Pair that with stellar ground clearance, and you maximize available traction and superior comfort maneuvering over terrain other side-by-sides would shy away from.

PADDLE SHIFTING: Steering column-mounted paddle shifters add a serious dose of performance in every drive. In Manual mode, they let you shift without ever taking your hands off the wheel, and in Automatic mode, they let you override the current gear with a quick up or downshift, holding that gear for several seconds before returning to Automatic mode.

TURF/2WD/4WD/DIFF LOCK: Don't tear up sensitive surfaces. Select Turf Mode. Want to access as much traction as possible? Put it in 4WD. Need maximum power at all four wheels? Lock the front and rear differentials. And the best part is, you can do it all with a shift of a single lever.

Versatility

1000-POUND-CAPACITY TILT BED: There are a ton of reasons to buy a Pioneer 1000. Among them: the half-ton hauling capacity*. And when it comes to dumping, we've

made it easier than ever, with a hydraulic assist tilt bed lever that can be accessed from outside the vehicle, or right from the driver's seat. *600-pound bed capacity for CA models

MORE UNDERSEAT STORAGE: The Pioneer 1000's convenient underseat storage area has a large opening, which keeps objects close at hand and easily accessible.

LARGE CUPHOLDERS: The primary dash-mounted cupholders in the Pioneer 1000 models are big enough to hold the most popular insulated tumblers. Plus, all Pioneer 1000 models also feature cup holders in every door. Designed to hold your water bottles securely, it's a convenient touch everyone will appreciate.

ENGINE AIR INTAKE: To get the most out of your engine, you need the best air going into it. That's why we positioned the air intake up high under the hood. It helps ensure a clean air supply, even at deeper fording depths, and with a viscous air filter element, you get increased performance and longer service intervals.

Comfort

3-PERSON CONTOURED BENCH SEAT: Tough, durable and built to enhance every driving experience — yes, we're talking about the seat. Contoured for three passengers, the center seat is positioned up and forward to maximize space and comfort, and the covering is designed to resist both the elements and heavy use.

LCD INSTRUMENT DISPLAY: The instrument display is easy to read, with big, bright graphics. The display includes a clutch indicator and a battery-voltage readout too, in addition to speed, fuel level, RPM, transmission mode, water temperature, trip information and more.

SOPHISTICATED CHASSIS: Some of the most impressive Pioneer 1000 features are those you'll never see. In addition to the suspension and ground clearance, we rubber-mounted the engine and exhaust system to help insulate the cabin against vibration. So while you may not see this feature, it's one you will definitely notice.

TILT WHEEL: With a tilt steering wheel designed to make getting in and out easier than ever, you're ensured an even more comfortable driving experience. We've given the wheel a wide range of adjustments for optimum customization and a spring-loaded damper that makes tilting it a snap.

COOLER CABIN: Our engineers have given the whole Pioneer 1000 lineup some big improvements when it comes to managing cabin heat. You'll ride cooler and be more comfortable in warm-weather conditions.

Safety

SAFETY NETS: Taking a cue from our Talon sport SxS models, we've made the Pioneer 1000 safety nets easy to connect and disconnect. And the mesh pattern optimizes air flow while providing passenger safety.

DRIVER/PASSENGER PROTECTION: The Occupant Protection Structure uses large-diameter tubing, and meets ISO's rollover protection standard. The hard doors and roll-up side nets help keep debris from entering the cabin, and auto-style three-point seatbelts are equipped with an emergency locking retractor mechanism, to help optimize passenger security. When you put this much safety first, fun is sure to follow.

SPECIFICATIONS

BRAKES/WHEELS/TIRES

Brakes	Front / Rear - Dual 210 mm hydraulic discs
Tires	Front - 27 x 9 - 14 Rear - 27 x 11 - 14

DIMENSIONS

Length	117.1 in.
Height	76.9 in.
Width	63 in.
Weight	Curb - 1,595 lb. (Includes all standard equipment, required fluids and full tank of fuel)

Ground Clearance	13.6 in.
Wheelbase	80.2 in.
Turning Radius	13.8 ft.
DRIVETRAIN	
Transmission	Six-speed automatic Dual-Clutch Transmission (DCT) with reverse; four drive modes include 2WD, 4WD, Turf and Differential lock; paddle shifters with three shift modes (standard, sport, and manual)
Drive System	Driveline - Direct front and rear driveshafts
ENGINE	
Engine	Unicam® SOHC; four valves per cylinder, longitudinally mounted parallel-twin four-stroke
Cooling	Liquid
Displacement	999 cc
Bore x Stroke	3.6 x 2.9 in. (92 x 75.1 mm)
Compression Ratio	10:1
Fuel System	Fuel Injection (PGM-FI); 44 mm throttle body
Fuel Capacity	7.9 gal. (including 1.7 gal. reserve)
OPERATIONAL	
Front Suspension	Independent double-wishbone Travel - 10.6 in.
Rear Suspension	Independent double-wishbone Travel - 10 in.
OTHER	
Additional Colors	Black Forest Green Avenger Red
Cargo Box Capacity	1,000 lb.
Towing Capacity	2,500 lb.
Safety Features	Recommended for drivers 16 years of age and older
Warranty	One year, transferable limited

Color	Black Forest Green
Condition	NEW
Engine Size	999 cc
Retail Price	\$17,599.00
On Sale	\$16,456.00

FEATURES

Engineering

I-4WD: The Pioneer 1000 Trail and Forest showcase our exclusive i-4WD system. Think "I" for "Intelligent," because that's exactly what it is. An industry-first brake-traction control system for side-by-sides, it simplifies operation, increases drivability and optimizes traction. Using proven, advanced technology from the Honda automotive division, you get the benefits associated with a locked front differential with none of the downsides. That means it maintains front-wheel traction even if one wheel wants to spin on ice or mud or if it's in a hole. But at the same time, you get the lighter steering, better tracking at high speeds, tighter turning radius, and reduced kickback associated with unlocked front differentials.

ADVANCED TRANSMISSION LOGIC: The brain of the DCT, Advanced Transmission Logic, senses how you drive and adapts. Relaxed drivers get earlier shifts for a quieter ride at lower engine speeds. Sportier drivers will hold each gear longer for higher RPM shifts. And when going downhill, you get true engine braking. Now that's a smart transmission.

PARKING INTERLOCK: Even something like the parking brake is made smart – and simple. It features a single push/pull cable that makes adjusting and servicing easy.

Performance

MORE POWERFUL 999CC TWIN-CYLINDER ENGINE: We've given the engine huge power in our entire Pioneer 1000 lineup, especially in the midrange and top end. And thanks to the lower gear ratios, you'll feel quick acceleration and stellar overall performance. Using the same Unicam® cylinder head design found in our motocross bikes, the class-leading 999cc liquid-cooled inline twin is compact, while delivering the kind of horsepower and torque you'd expect from a flagship model.

2500-POUND TOWING CAPACITY: The Pioneer 1000 is capable of hauling 2500 pounds. So instead of hopping on the tractor or taking out the truck, you can stay right in your side-by-side and tackle those bigger jobs with relative ease.

BUILT IN THE U.S.A.: The Pioneer 1000 is purpose-built for the American market, right in America. Domestically and globally sourced parts are all assembled at our plant in Timmonsville, South Carolina, and once these side-by-sides roll off the line, they're ready to explore every corner of the country.

FULLY-AUTOMATIC SIX-SPEED DCT TRANSMISSION: Drive the way you want, with the industry's first and only all gear-driven six-speed Dual Clutch Transmission. Choose between manual mode or fully automatic. Plus, the addition of Sport Mode increases the fun, shifting at higher RPM for a spirited, full-performance driving experience.

GEAR RATIOS: We've refined the gear ratios in the transmission, subtransmission, and final drive in all Pioneer 1000 models, helping enhance your Pioneer's versatility under all driving conditions.

HIGH/LOW SUBTRANSMISSION: With a full 42-percent gear reduction between High and Low, you get the torque you need in all six gears. It comes in handy when driving over difficult terrain, scaling steep hills or towing heavy loads.

Handling

CHASSIS AND SUSPENSION: Prepare to go further than ever before. Our refined chassis enables you to tackle terrain others would shy away from, with larger tires, long-travel independent front and rear suspension and huge ground clearance. The rubber mounted engine and exhaust system insulates against excessive vibration.

OTR DIRT MASTER TIRES: All our Pioneer 1000 models feature high-performance OTR Dirt Master tires for excellent off-road traction and superior wear.

THREE DIFFERENT WHEEL CHOICES: Our four Pioneer 1000 models come with three different wheel choices. The Pioneer 1000 rolls on 14-inch steel wheels. The Pioneer 1000 Deluxe and Forest Editions are fit with 14-inch aluminum wheels with an all-black finish, and the Pioneer 1000 Trail Edition gets 14-inch black aluminum wheels with contrast-cut highlights.

EPS SYSTEM: We're proud of this. Honda pioneered (no pun intended) electric power steering side-by-sides. And we've never stopped making it better. Every Pioneer 1000 EPS system features a brushless motor integrated with the ECU. The return-to-center function makes it intuitive on straight trails, and the whole system feels responsive and linear.

INDEPENDENT FRONT AND REAR SUSPENSION: Dual A-arm suspension gives you 10.6 inches of travel in the front, and 10-inches of travel in the rear. Pair that with stellar ground clearance, and you maximize available traction and superior comfort maneuvering over terrain other side-by-sides would shy away from.

PADDLE SHIFTING: Steering column-mounted paddle shifters add a serious dose of performance in every drive. In Manual mode, they let you shift without ever taking your hands off the wheel, and in Automatic mode, they let you override the current gear with a quick up or downshift, holding that gear for several seconds before returning to Automatic mode.

TURF/2WD/4WD/DIFF LOCK: Don't tear up sensitive surfaces. Select Turf Mode. Want to access as much traction as possible? Put it in 4WD. Need maximum power at all four wheels? Lock the front and rear differentials. And the best part is, you can do it all with a shift of a single lever.

Versatility

1000-POUND-CAPACITY TILT BED: There are a ton of reasons to buy a Pioneer 1000. Among them: the half-ton hauling capacity*. And when it comes to dumping, we've

made it easier than ever, with a hydraulic assist tilt bed lever that can be accessed from outside the vehicle, or right from the driver's seat. *600-pound bed capacity for CA models

MORE UNDERSEAT STORAGE: The Pioneer 1000's convenient underseat storage area has a large opening, which keeps objects close at hand and easily accessible.

LARGE CUPHOLDERS: The primary dash-mounted cupholders in the Pioneer 1000 models are big enough to hold the most popular insulated tumblers. Plus, all Pioneer 1000 models also feature cup holders in every door. Designed to hold your water bottles securely, it's a convenient touch everyone will appreciate.

ENGINE AIR INTAKE: To get the most out of your engine, you need the best air going into it. That's why we positioned the air intake up high under the hood. It helps ensure a clean air supply, even at deeper fording depths, and with a viscous air filter element, you get increased performance and longer service intervals.

Comfort

3-PERSON CONTOURED BENCH SEAT: Tough, durable and built to enhance every driving experience — yes, we're talking about the seat. Contoured for three passengers, the center seat is positioned up and forward to maximize space and comfort, and the covering is designed to resist both the elements and heavy use.
