July 20th, 2021

Hello Greg,

My last contact with the City of Manitowoc regarding the City of Manitowoc's water issue was a field inspection with Mike Zimmer on 8/12/19. This particular meeting was a culmination of previous efforts to address the overgrown vegetation ditch line along Orchard Lane. The ditch vegetation restricts the ability of surface storm water to freely flow eastward, which backs up and floods our field. We currently lease our property to Joe Holsbach for agricultural purposes, the enclosed photos reflects the flooding of the agricultural property after the last rain storm. Lack of maintenance along the Orchard Lane may result complete crop loss on this parcel, this drainage issue has previously been discussed without a cure.

The ramifications of water backing up and over our field banks is not acceptable, what are your plans to address this maintenance issue.

Thank you,

Russ Gilson

Dear Sir,

I am writing to you regarding the City of Manitowish's water supply. The City of Manitowish is currently experiencing a shortage of water due to a combination of factors, including a prolonged drought and a significant increase in water demand. The City is currently using emergency measures to conserve water, and we are looking for ways to reduce our water consumption. We are interested in learning more about your company's water conservation products and services. We are particularly interested in your water-saving faucets and showerheads. We would like to see a list of your products and their specifications. We would also like to know more about your company's pricing and terms of sale. We are looking for a long-term relationship with a reliable and cost-effective water conservation supplier. We are interested in your company's reputation and track record. We are looking for a company that is committed to customer service and quality. We are looking for a company that is committed to environmental sustainability. We are looking for a company that is committed to social responsibility. We are looking for a company that is committed to community involvement. We are looking for a company that is committed to innovation and research and development. We are looking for a company that is committed to excellence in everything we do. We are looking for a company that is committed to making a positive impact on the world. We are looking for a company that is committed to being the best at what we do. We are looking for a company that is committed to being the most innovative. We are looking for a company that is committed to being the most reliable. We are looking for a company that is committed to being the most cost-effective. We are looking for a company that is committed to being the most customer-focused. We are looking for a company that is committed to being the most socially responsible. We are looking for a company that is committed to being the most environmentally friendly. We are looking for a company that is committed to being the most community-oriented. We are looking for a company that is committed to being the most innovative. We are looking for a company that is committed to being the most reliable. We are looking for a company that is committed to being the most cost-effective. We are looking for a company that is committed to being the most customer-focused. We are looking for a company that is committed to being the most socially responsible. We are looking for a company that is committed to being the most environmentally friendly. We are looking for a company that is committed to being the most community-oriented.

Sincerely,

John Doe
