Please put this with the gator build sheet for council tonight. Thanks!
Nick

Nick,
I am in support of using the Gator for work downtown. After I made the initial contact with the gator vendor to start the spec I handed it over to you. I am confident that this machine is capable and is the right machine for the work that it will be doing. It may be used for watering flowers, landscaping work, garbage collection, snow/material movement, and others. It will be much more maneuverable in the tight areas downtown than a pickup truck would be. There will times when it needs to drive down the sidewalks, in between crowds, and around parked cars.
