Re: Request to place a Shed on City Property Adjacent to 1726 Nagle Ave.
(Item # 20-0251)

The property owners (DeNoyer's) at 1726 Nagle Ave. are requesting to place a small shed (10' by 14') on the City's Property between their home and the Railroad Tracks.

They also submitted a drawing that shows the proposed location of the shed.

I do not see any major issues with this request.

I recommend the City take the following actions regarding this request:

1. Approval of the request with the following requirements:
 - a) The shed is installed per City Codes and Permits obtained as required.
 - b) An Agreement is executed with terms and conditions suitable with the City Attorney for the shed to be allowed on City Property.
