Good Day All

These are the quotes for the full replacement of the dump box on truck #643.

The box is in very poor shape and 2 weeks ago almost fell off the truck while dumping a load of topsoil. The DPW mechanics have found that there is no good metal left on the box to even attempt a safe repair.

The truck is a couple years out on the 5 year plan for replacement and this truck only has 60,000 miles on it. During the work week this truck goes out with the forestry crew every day for use around the city.

Thanks
Jeremy Walvoord
