

**CITY OF MANITOWOC**  
WISCONSIN, USA  
*www.manitowoc.org*

**TO:** Public Infrastructure Committee

**FROM:** Dan Koski, Director of Public Infrastructure

**RE:** 19-1055 Gator Purchase at Evergreen Cemetery

Currently the Cemetery has 2 gators. These machines are used for getting in between the narrow grave space rows where a pickup truck can't. They are used for all maintenance in the cemetery including backfilling graves.

One of them is a 2017 and one is a 2001. Attached are 2 quotes. One is from Eis Implement. The other is a state contract price. Eis has the ability to actually sell for less than the state contract price with their government discount.

This purchase will be paid for out of the Perpetual Care Fund.

I recommend the City approve this request and purchase of the low quote from Eis Implement for \$16,700.00 for the following reasons:

1. Based on the existing resolution, memo from the city attorney's office, and support for the memo and equipment purchases from the cemetery commission. I recommend that the committee approve the upgrade of our existing 2001 JD Gator to a 2019 JD Gator.
