By signing below, I certify and acknowledge the following:

- 1.) I have authority to order this work for the subject property.
- 2.) I understand that MPU is providing a cost estimate for the subject work. You are required to pay this estimate in full and in advance of construction. A final invoice or credit will be issued depending on actual cost of performing the work.
I agree to pay costs that might exceed this estimate.
- 3.) Work done between October 30 and May 15 is routinely subject to additional frost charges. These charges will apply if frost is encountered during the course of work.
- 4.) MPU normally requires two weeks to design and schedule its work. **MPU does not begin to schedule its work until the customer provides ALL items requested in the MPU Customer Checklist that accompanies this estimate.** Items normally include but are not limited to the following: a Certificate of Final Grade form to ensure that grade will not change more than 6 inches after the MPU installation; the physical route for the MPU installation must be cleared 10' wide of brush, trees, dirt piles, etc.; an appropriate meter pedestal or service mast, including grounds, must be installed in a location approved by MPU -- alternatively, for services requiring a dedicated MPU transformer, the customer must provide a concrete transformer pad per MPU specifications; all privately-owned underground infrastructure (existing or planned sprinkler systems, invisible fences, electric lines, communication wires, drain tiles, piping, etc.) must be identified and located by the customer; all easement documents as requested by MPU; lot corners and easements must be staked; and full payment for this estimate must be provided to MPU in advance.
- 5.) **I have communicated and identified the locations of any known environmental issues to MPU, such as: protected wetlands; hazardous substances or chemicals in the soil; threatened or endangered plant or animal species present; or existing permits for soil management that apply to the property.**
- 6.) This estimate is valid for 60 calendar days. Please request an updated estimate if all requested items are not provided to MPU within 60 calendar days of this estimate.
- 7.) The customer must have an **electrical permit** issued by the City of Manitowoc Building Inspection Department. This permit will require an **electrical inspection** to be completed by the City Building Inspection Department prior to the service being energized by MPU. The customer is responsible for scheduling this inspection with the Building Inspection Department (minimum 48 hour advance notice).

NOTE: The customer is responsible for replacing any concrete, asphalt, or paving that is disturbed by the work indicated in this estimate.
