Karen here is my request to add with Chads

- Our current shop truck has 72,000 miles on it and is 23 years old.
- The current utility box has lots of rust holes in it. And has had the mounts and frame work repaired multiple times.
- The jib crane is not a rated crane and doesn't meet OSHA standards. (homemade crane)
- Mechanics have had to replace multiple part due to its age.
- Truck is not heavy duty enough for some of the tasks we are using it for. Towing Busses and Large Trucks

Karen if you need anything else from me on this please let me know..

Thanks

Karen,

Here are the CAWG requests minus JJ's, he will have one to add for you for his fleet mechanic truck. Can you make out sheets for them and try and schedule a meeting for next week with Steve and the group? I will have more info to present at the CAWG meeting and pictures.

- Sweeper purchase
 - \$240,000.00 budgeted for 2018
 - Spent the past 6 months assessing sweeper options and testing sweepers and came to what we feel is the best use of funds to meet our sweeping goals.
 - Purchase used 5 year old sweeper for \$150,000.00 now
 - Trade our old sweeper now
 - \$5,000.00
