## Appellant's Evidence

*Markarian v City of Cudahy*, 45 Wis. 2d 683, 173 N.W. 2d 627 (1970) states,

"...Only in the absence of a sale of the property in question or sales of reasonably comparable property, can the tax assessor, in determining fair market value, consider all factors collectively which have bearing on the value of property..." (WPAM, Volume I, page 21.3-16, revised 12/10; *Emphasis added*)

- Following the Markarian hierarchy:
  - Tier One: In 2018, the appellant submitted an objection form and information referencing the sale of the subject property:
    - March 31, 2017
    - \$1,350,000
- No information was provided on the partially complete, 62,590 square foot addition started in late 2017.
- The appellant provided no new information that was not previously considered in setting the current year assessment.

### DOR Appraiser Comments on Appellant's Evidence

- Following the Markarian hierarchy:
  - Tier One: The appellant's sale of the subject submission is representative of market value:
    - The subject property sold on 03/31/2017.
    - After investigating the sale, and talking with the parties involved in the transaction, a DOR Property Assessment Specialist has determined the sale was an arm's length transaction.
    - The sale price was used as the basis for the 2017 assessment.
    - The sale was included in the DOR database, as sale number 17-81-004.
- The 2018 assessment includes a partial assessment for the 62,590 square foot addition.
- The appellant provided no new information that was not previously considered in setting the current year assessment.

### Findings

- After review of the 2019 assessment, I found that Wisconsin statutes and the Wisconsin Property Assessment Manual were both followed.
- No errors were found in the assessment valuation process.
- The appellant has a prior year's assessment for the subject property pending before the Wisconsin Tax Appeals Commission. The appellant has not provided any new information to show that the current assessment is incorrect.
- The following court cases support the assessor's valuation:
  - "The party challenging the assessment has the burden of producing evidence showing the error in the assessor's valuation." Steenberg, 167 Wis 2d at 571-72, 482 N.W. 2d at 328, quoting *Rosen V. City of Milwaukee*, 72, Wis 653, 662-62, 242 NW. 2d 681, 684 (1976).
  - "There is a presumption that the assessor's valuation is correct. Such valuation will not be set aside in the absence of evidence showing it to be incorrect." *State ex. rel. Collins v. Brown*, 225 Wis 593, 275, N.W. 455.
  - "The burden of producing evidence to overcome this presumption is upon the person who seeks to attack the assessment and the presumption survives until it is met by credible evidence." *State ex. rel. Collins v Brown*, Subra.
