

General Plow Report

Date(s) of GP: 3-2-17

Timeline of GP / Summary of Activities: The GP was scheduled for midnight on 3-2-17. Due to the light snow and a full staff we finished the plowing in 6 hours.

Amount & Description of Snowfall: 2" - 3 "of light snow that lasted from 9 am to 7 pm.

Unique Challenges: Large amount of parked cars that crews had to plow around.

Equipment Breakdowns: Truck #77 (tandem dump truck) had a rear differential fail. This unit is a 2010 model truck with 67,000 miles. This will be a \$4000 repair.

Ideas for Improvement: None for this storm.
