Good afternoon Amber,

Can you please add this request to the September Public Safety Agenda. I believe the email provides an overview of the request, but if you need more information or a map of the area, I am happy to pull something together.

Any questions, please let me know.

Adam

**Subject:** External: Jay Street loading zone

Hello Adam,

I am following up on our recent discussions concerning the designation of one parking stall on Jay Street as a short-term (15 minute or less) loading zone. In order to accommodate users of the Schuette Building, I am requesting this designation at the location shown on the photo below where the vehicle is parked. For reference, this fronts the west-most set of doors on the Jay Street side.

Please advise if anything further is needed in order to present this request to the Public Safety Committee.

Respectfully,

Anton

**Anton Doneff**
