Jim Brey
Aldersperson, District 4
900 Quay Street
Manitowoc, WI 54220

To the Licensing, Permits and Inspections Committee,

I would like to express my interest in serving on the Manitowoc Public Utilities commission.

Throughout my professional and personal life, I have always had a passion for serving customers and managing the needs of operating an efficient and effective business. This includes an education and professional experience that focuses on operations and business management. I offer the perspective of an industrial utility customer, with a focus on costs and planning, along with the passion of an electric car owner and enthusiast, who understands grid power, mix, and overall trends in the electricity generating market.

I view the current openings on the Manitowoc Public Utilities commission as an opportunity to serve our community. I was born and raised in Manitowoc, and have recently returned to our family business after completing my education and gaining professional experience. I would like to see Manitowoc grow and develop, and view this as one avenue to help that continue. I know there will be significant challenges in the future regarding the managing of water supplies and power generation, and would be honored to be a part of taking on and addressing those challenges.

Sincerely,

Greg Jagemann

Enclosure

Gregory Thomas Jagemann
