Option 1: Apply Hydro-Mulch to area

\$1,371.00

Option 2: Apply ENCAP PAM-12 Soil Stabilizer to area

\$2,613.00

Under item 3, both options one and two will require using the hydro-seeder. The big question with the hydro-seeder is the ability to reach all the areas around the pond without doing considerable damage to areas we would have to drive on. Current conditions would not allow it, however things could change.
