Please use voting buttons above.

This is unbudgeted so this will need both PI and Finance committee approvals.

 Subject: cawg for parks trailers.

Good Morning All

This is the quotes for the 3 replacements trailers @ the parks department that are currently used for grass cutting around the city, these trailers are in very poor condition and the repairs exceed the value of the trailers. And have been deemed boarder line un safe but we have nothing else to use. The parks department is also using the heavy duty equipment trailer from DPW to help get by until we can purchase new trailers.

All 3 of the new trailers are set up the same with large 2 piece fold down ramps and string trimmer and backpack blower holder on the sides of the trailers.

Thanks JJ
