Greg,  
 The existing light on Rapids Road is functioning normally. Spacing of existing fixtures is adequate per ANSI standard RP-8. The following options are recommended if the city would like an additional light:

- A. Add a non-ornamental, 250 Watt "Cobra Head" light may be added to the existing utility pole on the north-west corner. No installation cost. Monthly cost is about \$14 (\$171 per year) to street light invoice.
- B. Add an ornamental, 100 Watt "Coach Light" on the north side of Remiker Lane, about 165' east of the existing coach light. Installation cost is about \$2,000. Monthly cost is about \$11 (\$133 per year).

Greg,  
 I would like an opportunity to ensure that the existing light is functioning properly. It is a 250 watt HPS fixture and should provide significant illumination for the intersection. It might be aging or dirty and not providing as much light as it could.

I'd also like a chance to look at the available pole space at the north-west corner, to discern if a light can be simply added – as that may be the most pleasant option. Let's follow-up next week!

Steve,

Can you take a look at this intersection (Rapids/Remiker) in regards to how well it is lit??

I looked at this area last night.

The intersection of Rapids/Sunset has 2 lights (SE & NW corners), Rapids/Fleetwood has a light on the southeast corner, Rapids/Wildwood has a light on the northeast corner.

My opinion is that there should be a light on the northwest corner of the intersection at Rapids/Remiker.

So, do we just add a 2<sup>nd</sup> light like we have at Sunset or do we move the existing light from the southeast corner???

What are your thoughts on this?? Let me know. Thanks.

I just talked to Deb Belland regarding this issue.

I think what she was thinking of is what you see at some rural intersections where there is a 4 way stop with a flashing red light above the intersection or a hazardous intersection where they use a flashing yellow light to bring attention to it.

That may work some, but I feel that the ground area will still be dark and hard to see.

I told her that I believe that her real request would be for another street light, perhaps on the northwest corner of the intersection. She felt that was a good idea or accurate.

According to the MPU maps, there is already an existing street light on the southeast corner.

I told her that I live out this way and would look at it tonight or tomorrow to see how dark it is or any other suggestions.

I told her I would get back to her in a couple days.

If a street light is being requested, then this issue should really go to the PI Committee and not the Public Safety Committee.

**Subject:** FW: New request received - Request for Street Light at Remiker Ln. & N. Rapids Rd.  
**Attachments:** Copy of Remiker Ln - N Rapids Rd (2).xls

Hi Debborah,

I looked at the intersection the other night and I do feel that either the existing street light on the southeast corner needs to be relocated to the northwest corner or a 2<sup>nd</sup> street light needs to be added to the northwest corner. This would make it consistent with the other intersections along Rapids Rd. (Sunset Rd., Fleetwood Dr. and Wildwood Dr.).

However, this requires me to take this request to the Public Infrastructure (PI) Committee for their action. Their next meeting is scheduled for **Wednesday, January 9<sup>th</sup> at 5:00 pm.**

If they approve the request for the additional street light, then we will need to have the MPU draft a resolution for final approval by the Common Council.

This may take 2-3 months for every to all fall into place.

Feel free to call or e-mail me with any other questions. Thanks.

Hello,

I sent the below reported concern to Alder Howe about placing it on the Public Safety agenda. He suggested staff take a look at this before adding it to the agenda. I went ahead and pulled the last three years of accident data for you to view. Could you please make some time to take a look this concern.

Address  
5106 Remiker Lane

#### Report the Concern

Please use one form per concern. Check the category for your concern  
Traffic / Road Signs

For a Street Light Out, please report the concern to [Manitowoc Public Utilities](#).

#### Brief Description (or other problem not listed)

On the corner of North Rapids and Remiker Lane there should be a stop sign with a flashing light. I missed the street the other night and almost ran into the field belong to the Assistant Living Home on same corner. It is very difficult to see where Remiker Lane is, when it is so dark.

Location of Problem
