Hello,

Can I get accident information for the last 3 years at the intersection of N. 18th and Menasha please?

Thanks,
Nick

Alderman Able,

Would you be willing to discuss this request at your next Public Safety Committee?

Ms. Retzak is included in this e-mail.

Thanks!

- Justin

Subject: Sign Request

Justin,

Gary and I have witnessed, on separate occasions, vehicles blowing through the stop sign at 18th and Menasha. These vehicles did not slow down, and were traveling at least 35 mph. Traveling through the sign has them at an unsafe speed as they pass Jackson Elementary School. Luckily, in both cases school was not in session. I am sure these are not the only two vehicles to drive through the intersection without stopping.

Both times, the vehicles were traveling south on 18th. I recently drove Q from 310 and I could see why someone not familiar with the road, or not paying attention, would miss the stop sign at the intersection.

In Door County, we see lighted, flashing stop signs at similar intersections. There are also areas where flashing signs alert the driver to a stop sign ahead. I would like to see similar signage at this location.

If you feel that my request is reasonable, please forward this to the appropriate office for consideration.

Thank you.
