Hello,

I was asked to get the accident information for N 5th and New York Ave for the last 3 years. There were zero (0) accidents related to this intersection. Searching the blocks directly adjacent to this intersection there were two (2) accidents involving unsafe backing, which involved backing from a driveway hitting a parked car, and backing in the roadway hitting a city bus while trying to park in a driveway. Since there were so few we went back even further and the pattern of very few accidents continued to show.

I have attached the general information for you to review prior to the Public Safety meeting.
