Dear Ms. Neuser:

I am just sending a quick thank you note for allowing me to speak at the City Council Meeting on Monday. I tried to keep my comments incredibly short. I just wanted all of you to know that I am interested in what occurs in my City. I also asked several people what they may want in a Judge, and the overwhelming responses included someone who is prepared, impartial, and not prone to legislate from the bench. I qualify under all three areas.

I also want to thank you for your hard work with the City. Living under the microscope of local politics is often uncomfortable, while the rewards of an effective local government are sometimes impossible to measure.

One of the other things I was considered mentioning was the fact that I prosecuted many cases for the City of Manitowoc during a reciprocal agreement that Dave Pawlowski and I had when he was prosecuting for Manitowoc and I was prosecuting for Two Rivers. I spent many hours pursuant to that prosecution arrangement working for the benefit of Manitowoc, including several full Jury trials, and never charged a nickel to do so.

In any event, please keep up the good work.

Sincerely,

Ralph J. Sczygelski
