**RESOLUTION APPROVING THE THREE YEAR HARBOR DEVELOPMENT STATEMENT OF INTENTIONS FOR 2019-2021**

WHEREAS, the attached Three Year Harbor Development Statement of Intentions for 2019 - 2021 describes proposed improvements which are in the best interest of the Manitowoc Harbor and River; and,

WHEREAS, the Wisconsin Department of Transportation, in accord with state statute, requires a statement of project intentions from local units of government intending to apply for federal and/or state aid for harbor related work of any type within the next three years be updated annually; and,

WHEREAS, we have carefully reviewed the estimated project costs, funding sources, physical location, and alternatives to the proposed project(s); and,

WHEREAS, the total local matching funds required for projects indicated as being funded through the Wisconsin Harbor Assistance Program ranges from (20%) to (50%); and,

WHEREAS, this Three Year Harbor Development Statement of Intentions is used by the Wisconsin Department of Transportation for planning purposes only and is not a petition for federal and/or state aid.

**NOW, THEREFORE BE IT RESOLVED** that the Mayor and Common Council approve the attached Harbor Development Statement of Intentions.

INTRODUCED           **MAR 18 2019**           ADOPTED                                  APPROVED                                 

Justin M. Nickels, Mayor

Fiscal Impact: N/A

MEMO

March 12, 2019

TO: Chairman Lee Kummer, Public Infrastructure Committee

RE: Three Year Harbor Development Statement of Intentions 2019 - 2021

Chairman Kummer:

Attached is a resolution for the Three Year Harbor Development Statement of Intentions for 2019 – 2021. Could you please have the attached resolution introduced and adopted at the next Common Council meeting. The Statement of Intentions is due to the Bureau of Harbors and Railroads on or before April 1<sup>st</sup>.

The 3 Year Harbor - Statement of Intentions qualifies the City for potential Harbor Assistance Funds that may be available. This resolution and Statement of Intentions are required in order to annually qualify the City for State and Federal financial assistance for potential commercial harbor improvement projects. This resolution does not commit the City of Manitowoc to expend any funds whatsoever; it simply makes the City eligible for potential funding.

Feel free to contact me if you have any questions regarding the resolution for the 3 Year Harbor - Statement of Intentions.

Respectfully,  
Paul Braun  
City Planner/Harbor Master

**THREE-YEAR HARBOR DEVELOPMENT  
STATEMENT OF INTENTIONS**

**Due: April 1**  
**Send to: WisDOT**  
Bureau of Railroads & Harbors  
P. O. Box 7914  
Madison, Wisconsin 53707-7914

MANITOWOC  
Harbor Name

CITY OF MANITOWOC  
Responsible Local Unit of Government  
(County, City, Village or Town)

**Improvements Proposed in Calendar Year 2019**

**Instructions:** Complete one of these sheets for each project contemplated in each of the next three years. Include only those projects that benefit **COMMERCIAL TRANSPORTATION**. Examples include dredging, dredge disposal and dock wall construction.

**PART I Project Description and Objective(s)**

A – Dock wall improvements along a 950 foot length of bulkhead abutting the Manitowoc River adjacent to the Canadian National Railroad property. The project would accommodate the needs of a water-orientated mixed use development. The project would also provide additional public access to the river.

B - Harbor improvements would be an integral piece in redeveloping a very under-utilized parcel in the downtown area. The mixed use development would increase the tax base, create jobs, provide downtown living options and redevelop a blighted downtown site. The project would address a "key redevelopment" site as stated in the City's 2009 Comprehensive Plan.

**PART II Project Resources**

**PART III Rank & Probability**

<u>Expected Funding Sources (All types)</u>	<u>Amount</u>
(b) PRIVATE	\$ 1,150,000
(c) Wis DOT	\$ 3,000,000
(d) Other	\$ 400,000
	Total
	\$4,550,000

- (a) Of the projects listed for the year noted above, this project (a) is of 1 priority to the applicant.
- (b) The estimated probability of this project being started in year noted above is:  
(Circle One) High  
Medium  
Low

**Improvements Proposed in Calendar Year 2019**

**Instructions:** Complete one of these sheets for each project contemplated in each of the next three years. Include only those projects that benefit **COMMERCIAL TRANSPORTATION**. Examples include dredging, dredge disposal and dock wall construction.

**PART I Project Description and Objective(s)**

A – Throughout the Manitowoc River, Inner Harbor and Outer Harbor there are locations where general maintenance is needed to preserve the existing infrastructure. Sheet wall caps, sheet wall systems, escape ladders and other infrastructure are in need of maintenance. In addition there are areas of erosion occurring behind the sheet wall system which is weakening the structural integrity of the sheet wall.

B – The City of Manitowoc and Harbor Commission are interested in the development of a Harbor Master Plan to guide future infrastructure investments and developments.

**PART II Project Resources**

**PART III Rank & Probability**

<u>Expected Funding Sources (All types)</u>	<u>Amount</u>
(b) PRIVATE	\$75,000
(c) WIS DOT	\$250,000
(d)	
	Total
	\$325,000

(a) Of the projects listed for the year noted above, this project (a) is of 2 priority to the applicant.

(b) The estimated probability of this project being started in year noted above is:

(Circle One) High  
Medium  
Low

Instructions: Complete one of these sheets for each project contemplated in each of the next three years. Include only those projects that benefit COMMERCIAL TRANSPORTATION. Examples include dredging, dredge disposal and dock wall construction.

**PART I Project Description and Objective(s)**

A – Along the north bank of the Manitowoc River adjacent to the Wisconsin Maritime Museum and USS Cobia submarine there are many areas where the existing whaler system is failing or has failed. In some locations the wood whaler system is missing completely making it unsafe for boats and vessels to moor along the sheet wall. There is erosion and undermining along the Wis. Maritime Museum sheet wall which is weakening the sheet wall and needs to be addressed.

B – In addition to the failing whaler system a ramp or ladder system is needed to allow individuals to safely exit their vessel. Currently individuals have to climb over a fence barrier in some locations.

**PART II Project Resources**

**PART III Rank & Probability**

<u>Expected Funding Sources (All types)</u>	<u>Amount</u>
(b) PRIVATE	\$50,000
(c) WIS DOT	\$200,000
(d)	
	Total
	\$250,000

Instructions: Complete one of these sheets for each project contemplated in each of the next three years. Include only those projects that benefit COMMERCIAL TRANSPORTATION. Examples include dredging, dredge disposal and dock wall construction.

**PART I Project Description and Objective(s)**

- A – Dredging to allow for sailboats and other vessels to navigate in the marina area and the outer harbor. When Lake Michigan water levels are low vessels are close to not having enough draft to safely use the marina facility. Larger boats would be unable to access the marina area and cannot be "wintered" in the existing boat storage building.
- B – The project would protect the private and public infrastructure enabling the continued use of the existing facilities. Modifications to the existing pier structures and other infrastructure will also be required due to cyclical water levels and aging infrastructure.
- C – Phased replacement and/or repair of deteriorated pier structures to provide better ADA accessibility and ability to moor and service larger transient boats.

**PART II Project Resources**

**PART III Rank & Probability**

Improvements Proposed in Calendar Year 2021

Instructions: Complete one of these sheets for each project contemplated in each of the next three years. Include only those projects that benefit COMMERCIAL TRANSPORTATION. Examples include dredging, dredge disposal and dock wall construction.

**PART I Project Description and Objective(s)**

A – This project entails the construction of a sheet wall system with the development of an adjacent riverwalk trail. Project length is roughly 2,200 lineal feet, 600 l.f. is currently sheet wall with the remaining 1,600 l.f. having no sheet wall leaving the shoreline unprotected. Prop wash from small and large vessels, some which are over 500 feet in length, are continually eroding the shoreline causing sedimentation on the river's bottom.

B – The objective of the project is to: protect the shoreline and erosion hazard area along the river's edge, protect the existing infrastructure in the area, improve water quality by reducing erosion, and increase public access to fisherman, pedestrians and bikers by opening an underutilized corridor along the Manitowoc River. By eliminating shoreline erosion in the area the need to dredge the adjacent river should be reduced, saving costs by reducing the frequency of dredging.

**PART II Project Resources**

**PART III Rank & Probability**

<u>Expected Funding Sources (All types)</u>	<u>Amount</u>
(b) PRIVATE	\$ 400,000
(c) Wis DOT	\$ 3,600,000

**Instructions:** Complete one of these sheets for each project contemplated in each of the next three years. Include only those projects that benefit **COMMERCIAL TRANSPORTATION**. Examples include dredging, dredge disposal and dock wall construction.

**PART I Project Description and Objective(s)**

A – Expansion, modernization and improvements along portions of the existing dock & sheet wall along the Manitowoc River adjacent to the City Centre LLC’s “Peninsula” property. Project would include a loading platform and heavy lift equipment to transload raw materials and finished goods onto and off of barges and other marine vessels. During low water levels dredging may be necessary to allow for larger vessels to access the transloading operation.

B – The project would allow for a more efficient means to receive and ship, raw and finished materials. The increased efficiency would allow the existing and future industrial businesses to remain competitive in their respective markets.

**PART II Project Resources**

**PART III Rank & Probability**

**Instructions:** Complete one of these sheets for each project contemplated in each of the next three years. Include only those projects that benefit **COMMERCIAL TRANSPORTATION**. Examples include dredging, dredge disposal and dock wall construction.

**PART I Project Description and Objective(s)**

A – Dredging of the Manitowoc River to allow for safe access of larger marine vessels. Update and repair approximately 900 lineal feet of dock/sheet wall along the east bank of the Manitowoc River between the existing railroad bridge and a recently removed railroad bridge. The increased river depth from the dredging would require the existing sheet wall to be increased in depth to prevent undermining. Increased river depths would allow greater access to the river for larger vessels and yachts.

B – In addition to the dredging and sheet wall improvements other landward infrastructure is planned. These improvements would enable an existing company the ability to construct larger vessels. These potential improvements would include boat lift equipment, crane pads and dry dock facilities.

**PART II Project Resources**

**PART III Rank & Probability**
