accommodate a wide
variety of paper sizes

INTEGRATED PROCESS

Combined with Hasler's OMS solutions, the M3300 will be able to achieve cost savings for you by automating variable page document preparation, thus avoiding manual handling and errors.

With our Fill and Mail solution, you can automate your total mail flow by interfacing the M3300 to a Hasler mailing system.

MAXIMUM SECURITY

The M3300 is also able to automate the processing of mail that contains a variable number of documents. The OMR scanner system allows you to automate the assembly of documents to be inserted for each recipient and it automatically stops the machine should the contents of a mail piece be incorrect. The M3300 guarantees the integrity of your mail whatever the circumstances.

HASLER'S M3300

A DEPENDABLE ALL-IN-ONE MAIL MANAGEMENT SOLUTION

The M3300 is able to quickly and automatically process all standard mail management services as well as direct marketing applications. This is achieved thanks to an easy-to-use graphic touch screen and highly developed ergonomics. Designed on the basis of a tried and tested platform, it is 100% reliable. Your mail will be processed on time, every time. Combined with our output management solutions (OMS) featuring grouping, sorting and splitting capabilities, the M3300 will optimize your mail flow and contribute to significant cost savings.

ENHANCED EASE OF USE

The M3300 is equipped with a 5.7" graphic touch screen that makes it easy to use and allows applications stored in the memory to be accessed quickly. A step-by-step wizard allows all users to define settings for their applications and store them in the memory for job recall.

The M3300 is a model of ergonomic efficiency and as such is well suited to automated processing. Additionally, its compact size and low noise level make it suitable for use in every work environment.

TOUCH SCREEN

The 5.7" color display provides an intuitive wizard-based user interface for ease-of-use.

MAXIMUM FLEXIBILITY FOR YOUR APPLICATION

The M3300 can be configured in several different ways and adapted to meet your every need. This versatility will automate your transactional mail targeted at customers and prospects to further develop your business activity. The flexFeed® function processes all document sizes including inserts, reply forms and return envelopes.

Additionally, the manual mail function allows you to process both stapled and unstapled mail that may contain a variable number of documents depending on the recipient.

**SAVE MONEY
WITH YOUR M3300
MAIL SOLUTION ...**

Optimize your electronic document process with Hasler's OMS solution and reduce your postage expenses.

Fold, insert, seal, and meter your mail with our Fill and Mail solution.

Selectively add additional documents to the envelope with the M3300's enhanced reading capabilities to reduce the number of envelopes mailed.

- DOCUMENT MANAGEMENT SOFTWARE SOLUTIONS**
- Compose the document
 - Multicriteria sort
 - Group batches
 - Optimize mail pieces according to postal constraints
 - Manage personalized inserts
 - Manage data quality
 - Ensure security
 - Add optical marks to drive the folder inserter automatically

Attachments: m3300.pdf; MailFinance-Government-Lease-Agreement-MPD Inserter.docx; WSCA NASPO Purchase Orders.docx; WSCA NASPO Lease Orders.docx

Good afternoon Jenny,

Here is the information you requested on our folder/inserter. To purchase the unit your cost would be ~~\$5,654.00~~ Maintenance would be free first year. Second year maintenance would be ~~\$1,044.00~~. The other option is the lease I've attached below. I'll be calling you to go through both options.

Being a WSCA contract there are also purchase order and lease order instructions, again I'll go through these if you have questions.

Thanks for considering us.

Best regards,

Ron Scherwinski
