TO: Mayor and Common Council
FROM: City Attorney Kathleen M. McDaniel
RE: Two-Way Streets

The attached ordinance implements all of the necessary law changes to convert Eight, Tenth, and Eleventh Street to two-way traffic between Washington Street and Waldo Boulevard. The following changes are being made:

- 10th Street is designated as an arterial from Waldo Boulevard to Washington Street, where it currently is an arterial from Water Street to Washington Street
- North 11th Street remains an arterial from Waldo Boulevard to Water Street, but is now separated from 10th Street in the ordinance.
- The three-way stop at N 11th and Huron is removed and replaced by a four-way stop due to the two-way traffic on North 11th Street.
- 8th Street, 10th Street, and 11th Street are removed from the listing of one way streets and that section of code is amended to reflect the new subsection letters.
