I think we need to recall the Mayor for the disrespect he is exhibiting to the patriarchs and matriarchs of this great city to which they have contributed to all their lives. We have been told that we are not equitable to all, not providing safety, non-inclusive, and non-accepting of others of which we certainly are not guilty of. We help those in need and open our hands to all. We don't raise a fist and demand things from others.

We individually raise-up our sleeves, work hard, sweat, try hard to achieve our goals...morals and values of the people of this great city. Believe it or not, 99.9% of us freely accept and try to help others.

The Mayor has been tyrannical and exhibiting marxist control in how he is running our great city. Forming his own DEI committee to even usurp the powers and jobs of the elected city aldermen---the voice of the people. Do you aldermen know what the people who voted you in want? Maybe you should ask them and listen to them! The Mayor even said it was "his Idea", not the council's. It must be his "Woke" "Equity" ideological awakening...in the end, it will be very destructive to this city and it's good people.

Put the formation of this committee up for the people of this city to vote on. Make it a referendum question for the next election and educate the people what this truly is and the specific inequities they want to fix.. ( This is how the 2 way street issue should have been handled...but the tyrannical Mayor got his way without any vote from the people in a reerendum.) Better yet, is it time for a recall??? Possibly even some aldermen who do not listen to the people they represent and instead surrender-up all their constituents' voices to this Mayor???

We the people of this great city don't like how it is being run. The morals and values of this great city, and respect for the people (long time residents) are being erased by this Mayor. Manitowoc will no longer be great. What a shame! Look at the downhill direction the library has taken when it comes to Manitowoc's morals and values, telling them that they were not inclusive or diverse, and not equitable. Allowing pornographic and sexually explicit books to be available to minors! Look at the MPSD's downhill decline in education and behavior...all brought on by a "Woke" "Racial equity" marxist ideology! And we should really be proud of our Manitowoc leaders for allowing this to happen??!!

Marilyn Weyer
