Here are the various agreements that comprise the switching from Copper PRI circuits to Fiber circuits with AT & T.

This will be on the June 15th Council Agenda as previously discussed. I am not sure if there are any variations between what is attached and what I sent as a preview of the documents last week, but wanted them to be in your hands ASAP.

Please let me know if you have any questions.

Are you ok if I forward these to Mackenzie to include on the agenda to get things going?
