Subject: Port-a-potty at Fleetwood Park

Hi Jason:

I would like to voice a concern of mine regarding bathroom facilities at one of our city parks, namely the Fleetwood Drive Park over by the tennis courts and children's play area. There seems to be a need for such a facility as we take the children to play in the Park or when we play tennis. There is no bathroom available. I don't feel that the city needs to build a permanent site but a port-a-potty would serve the purpose. I know that I had mentioned this to you last year and you said that you would bring it up at your meeting. My thought would be if it would be assessable maybe from April til November.

I would appreciate your attention on this matter. (and I know vandalism is always your first concern) but the Police would just have to monitor this area.

Thank you for your time and concern.

Sincerely,

Chris Chaloupka

1332 Hazelwood Drive

10th District

I can get one there. It will cost about \$600.00. A little less maintenance somewhere since I would pay for this out of my operations and maintenance budget.

Have there been any other requests here? Seems like a high cost for one person's request?

I would say add it to the agenda, but it sound like that will be PI Committee now? I will ask Dan to add it to the agenda unless you feel differently. Let me know.
