Subject: RE: 2022 Slab Replacement

Dan,

Here are the areas that Steve and I were looking at for the 2022 Concrete Slab Replacement Project.

- 1.Division St. - S. 30th to S. 35th St. - This is a big one. Lots of slabs here.
- 2.Maritime Drive by the YMCA. - This was the area where there is an inlet and the sidewalk popped out. There are about 4-6 panels that might need to come out.
- 3.Shorewood Blvd. at Fenway Terr. - There is one bad slab.
- 4.Michigan Ave. - East of N. 23rd St. by the Cemetery (We will remove the railroad tracks and try to get a much better ride through there).
- 5.21st Street - both north and south of the Manitowoc River Bridge. There are about 6-8 panels that are very shattered.

Not sure how many of these we will get with the money we have. Steve is still evaluating these locations and trying to get cost estimates completed.

Subject: 2022 Slab Replacement

The Finance Committee last night asked what areas we are looking at for slab replacement next year.

Do we have an idea that we can show on a map and provide to them for their information?
