Chad,

Here are 3 different views.

The monument will be constructed using concrete, stone, iron and other materials. Portions of the arrow and the surrounding area will be covered in red bricks which will be sold as individual memorials. The wall will be faced with the history of the 32nd Red Arrow from Civil War to WWI, WWII, the Berlin Crisis and it's current configuration as a Infantry Brigade Combat Team harking back to its' roots as the Iron Brigade of the West.
