Subject: RE: Request to start a firewood revenue fund

Steve or Dan,

Do either of you know if the Finance Committee addressed this?

Subject: Request to start a firewood revenue fund

Hi Steve,

Attached is a memo from the tree commission to finance committee requesting a fund be established for revenue generated by the sale of firewood at the parks division. There has been about \$1,400.00 generated this year and the commission would like to see this and future years money held for use in forestry. Alderman Able attended the tree commission meeting and was supportive of this.

Could you get this on the finance committee agenda for next week?

Any questions let Dan or I know.
