Manitowoc Department of Public Works
Attn: Jim Muenzenmeyer
2655 South 35th Street
Manitowoc, WI 54220

Dear Jim,

The following proposal is in regard to the replacement of the high efficiency forced air furnaces at the Washington Park and Red Arrow Park facilities. We will offer pricing to replace the existing high efficiency units with new Carrier single stage gas furnaces including the following:

Furnace Replacement:

We will remove and properly dispose of the existing furnace and replace it with a new Carrier High efficiency single stage furnace. The new furnace will be installed in the same location as existing and the ductwork will be modified to accommodate the new unit including reconnection to the return air filter racks. We will connect the new furnaces to the existing Pvc vent system with new pipe and fittings. Gas connection will be made and tested and anew thermostat will be installed. The line voltage electrical connection will be made by a Licensed Electrician and a complete start up procedure will be performed to ensure proper operation and maximum efficiency.

Price installed for the Red Arrow Park furnace replacement.....\$2,745.00
Price installed for the Washington Park Location.....\$2,425.00

Respectfully submitted,
SCHAUS ROOFING AND MECHANICAL
CONTRACTORS, INC.
