Dear Mayor Nickels and Members of the Common Council,

I use and value the Manitowoc Public Library. As you prepare and consider the 2015 budget I hope that you will support funding the library with an increase to maintain the current level of service and hours of operation. The library is a valuable educational service to this community.

Thank you for your leadership.

Frequently I visit the Librarian for Books and DVDs. Often I call for various information needs. I do not own a computer, am not Technology knowledgeable, therefore am grateful for the many times a phone call to the Librarian obtains information.

All of Librarian staff is always kind, helpful and good to me - an old lady (age 88)
