Subject: PC27-2009: Annual Review of Special Permits for Fixed Animated Signs Pursuant to Section 15.450(18)(e)7. of the Manitowoc Municipal Code

Good afternoon. The **June 11th** Plan Commission agenda will include the annual compliance review for fixed animated signs and animated billboards. The attached listing at the bottom of this memo identifies the animated signs and animated billboards for which the Commission has issued a Special Permit to date. Animated signs and animated billboards for which a Special Permit has been revoked are no longer on this list. Special Permits issued since the last annual compliance review was completed in June, 2013, are identified **in red** below. A copy of the Special Permit for the sites listed in **red** are attached.

Gentlemen, if you can please [review these signs](#) and let me know if you've had any public safety complaints or concerns regarding any of the structures listed below, that would be appreciated as well. Please provide me with a written reply to this e-mail ***on or before noon on Wednesday, June 4th.***

Any questions, please contact me directly. Thanks.
